

Fiber Optic Interconnect Solutions

SOURIAU
Connection Technologies

SOURIAU

in the Optical Market

Today's technology is more and more complex, requiring the management of an increasing flow of information at greater speeds combined with the necessity to save weight.

In response to this need, SOURIAU offers a wide range of fiber optic solutions for high speed networks in harsh environments.

Fiber optic is the best solution when high data-rate, EMI immunity and weight savings are required. Our solutions can handle data speeds up to several Gbit/s thanks to its excellent optical performance in the most severe environments.

Its unique user-friendly design and its versatility account for the selection of SOURIAU by major customers in various markets for their fiber optic applications.

SOURIAU Values

QUALITY & EXPERTISE

USER FRIENDLY

ROBUST & FIELD PROVEN

UTS MPO
Multiple fibers

© SOURIAU

Telecom Fiber Optic Connection

Easy handling for non-skilled workforce. Fit for rapid deployment.
Long outdoor life expectancy. No need for specific overmold.

UTS LC Series

Dual fibers
-40°C to 105°C
IP68/69K
UV resistance (F1 material)

UTS Hybrid MU

4 fibers
2 powers
1 grounding

Telecom Hybrid Connection

Mix layout of fiber optic (MPO/MU) and copper conductors: the solution for a quick and reliable installation or retrofit of Fiber to the Antenna equipments.

UTS Hybrid MPO

Multiple fibers
2 powers
1 grounding

UTS

Plastic connector
Bayonet coupling
From 3 to 23 contacts
-40°C to 105°C
IP68/69K
UV resistance (F1 material)

General Industry

Flexible hybrid design: the new optical termini for glass fiber that performs in electrical standard cavities. Combined with the UTS, UTL or UTO, the new optical termini is a robust solution and can be used in a large scope of industrial environments.

UTL

Plastic push-pull connector
4 to 8 contacts
-40°C to 105°C
IP68/69K

UTO

Metallic shell, bayonet coupling
3 to 19 contacts
UL 1977 & IEC 61984 compliant
IP68/69K

38999 Composite ELIO®
7 optical layouts
Lightweight shell
User friendly

Aerospace

ELIO® EN4531 Termini is the favorite Airbus fiber optic solution. Easy to clean, easy to maintain. Excellent stable optical performances. No tool needed for insertion/extraction. Sealed contact without backshell (IP67). Fits also in #8 electrical cavity.

ARINC 600 ELIO®
3 shell sizes
Rackable and modular connector

Backshell & Harness ELIO®
SOURIAU has developed dedicated solutions to ensure the best optical performance and offers support from design through manufacturing

micro38999 ELIOBEAM®
Single contact
Bayonet or screw coupling
High vibration withstanding

Engine & Sensors

ELIOBEAM®: the optical connection requirement for environmentally exposed mating cycles. The beam expansion at the interface provides protection of the fiber from contaminants. ELIOBEAM® can be mounted in all standard EN4531 cavities.

ARINC 600 ELIOBEAM®
3 shell sizes
Rackable and modular connector

38999 ELIOBEAM®
7 optical layouts
Robust and field proven
A large connector range:
platings, specific shells, ...

838 ELIO®
8 contacts
Screw coupling
Coding by ring orientation

© Metilion - Fotolia

Railway

Field proven solution: ELIO® contact used over 15 years.

Standard railway connector shells. tested according to railway standards following EN50467.

VGE1 ELIO®
2 to 12 contacts
Reverse bayonet locking
IP67 with appropriate backshell
100 mating cycles

Optical Patchcord
Design your optical patchcord over more than 500 termini and cable mix

Custom Solutions

The dedicated R&D optical team supports your specific needs from preproject to full industrial release with adapted solutions: technical and economical analysis with the customer, design and development of optical solution, deployment support (work instructions, field training, or the installation procedure) and robust after-sales support.

There is a strong relationship between the optical connector, fiber termination and harness assembly; thanks to its in-house fiber optics assembly line, SOURIAU supports you from the design stage to supplying a wide range of fiber optic assemblies.

Lanyard Release

Our Differentiators

■ QUALITY & EXPERTISE

Decades of know-how and expertise have allowed SOURIAU to become a key partner to fiber optics equipment and harness manufacturer from pre-development to fully industrialized solutions.

SOURIAU proposes high performance connectors: waterproof, shock and vibration resistant, mix power and optical signal, extreme temperature resistant are ones of SOURIAU connector benefits.

■ COMPLETE INTERCONNECT SOLUTION

From fiber optic termini, connectors to cable assemblies, SOURIAU offers a scalable range and support.

■ ENVIRONMENT & SAFETY

Compliance to international standards UL, IEC, RoHS, REACH, EN, MIL, IRIS, JR....
